

Cookie Policy

What are cookies?

This website uses cookies and/or similar technologies that store and retrieve information when you browse. In general, these technologies can serve a wide variety of purposes, such as recognizing you as a user, obtaining information about your browsing habits, or customizing the way content is displayed. Our specific uses of these technologies are described below.

What types of cookies are used on this website?

a) Technical cookies: these are those that allow the user to navigate through the website, platform or application and use the different options or services that exist therein, including those that are used to allow the management and operation of the website and enable its functions and services, such as, for example, control traffic and data communication, identify the session, access restricted access parts, etc.

b) Preference or personalisation cookies: these are those that allow information to be remembered so that the user can access the service with certain characteristics that may differentiate their experience from that of other users, such as, for example, the language, the number of results to be displayed when the user performs a search, the appearance or content of the service depending on the type of browser through which the user accesses the service, etc.

Who uses cookies?

a) First-party cookies: these are those that are sent to the user's terminal equipment from a computer or domain managed by the person responsible for the website and from which the service requested by the user is provided.

b) Third-party cookies: these are those that are sent to the user's terminal equipment from a computer or domain that is not managed by the person responsible for the website, but by another entity that processes the data obtained through cookies.

Cookies used on this website

The following is an identification of the cookies that are being used on this portal, as well as their type and function:

NAME	GUY	SUPPLIER	PURPOSE	DURATI ON
------	-----	----------	---------	--------------

PHPSESSID	Technique	Own	The PHPSESSID cookie is native to PHP and allows websites to store serialized status data. On the website it is used to establish a user session and to pass status data through a temporary cookie, which is commonly referred to as a session cookie. These cookies will only remain on your computer until you close your browser.	Session
-----------	-----------	-----	---	---------

How can you accept, deny, revoke consent or delete cookies?

You have the option to allow, block or delete cookies installed on your computer by configuring the options of the browser installed on your computer. By disabling cookies, some of the available services may no longer be operational. The way to disable cookies is different for each browser, but can usually be done from the Tools or Options menu. You can also check your browser's Help menu where you can find instructions. You can at any time choose which cookies you want to work on this website.

You can allow, block or delete cookies installed on your computer by configuring the options of the browser installed on your computer:

- [Google Chrome](#) 
- [Mozilla Firefox](#) 
- [Internet Explorer](#) 
- [Safari](#) 
- [Operates](#) 
- [Internet Explorer \(Windows Phone\)](#) 
- [Safari for IOS \(iPhone and iPad\)](#) 
- [Chrome for Android](#) 

Data transfers to third countries

You can find out about the transfers to third countries that, if any, are made by the third parties identified in this cookie policy in their corresponding policies (see the links provided in the "Third-party cookies" section).

Profiling

A user profile will not be created based on the monitoring of your browsing activities on our Website. And consequently, no automated decisions will be made based on such browsing.

Cookie retention period

a) Session cookies: they expire automatically when the user finishes the session and are usually used to store necessary information while providing a service requested by the user on a single occasion

b) Persistent cookies: they remain stored on the user's terminal for a certain period of time (from a few minutes to several years).
